EXPERIENCE

Groww - Software Development Engineer

Jul 2026 – Present

Onsite, Bengaluru

- Built and enhanced performance monitoring and observability to identify and measure application bottlenecks.
- Improved network performance monitoring and visibility into request-level metrics.
- Improved application startup performance by **optimizing initialization workflows and offloading non-critical tasks to background execution**.
- Contributed to the React Native 0.81.1 upgrade by resolving native and JavaScript issues and addressing upgrade-related regressions.

Groww - Software Development Intern

Aug 2025 – Jul 2026

Onsite, Bengaluru

- Worked with the React Native App Platform team, contributing to application stability across the Groww mobile application.
- Fixed critical production issues and improved UI/UX consistency across the Invest App and internal UI component libraries.
- Resolved issues related to WebView integration, navigation, and deep-link handling in critical application flows.
- Fixed UI and stability issues involving keyboard handling, SafeArea behavior, modal rendering, loader freezes, and UI flickering.

Stealth Startup - Software Developer

Aug 2024 – Jun 2025

Remote

- Led React Native performance optimization, improving application startup time, UI responsiveness, and memory efficiency.
- Developed and maintained mobile applications and contributed to publishing releases on the Apple App Store and Google Play Store.
- Designed and developed backend services using Node.js and Express.js, including API architecture and scalable application workflows.
- Worked on database schema design, Redis caching, query optimization, connection pooling, and asynchronous processing.

BuildEnfra - Software Developer Intern

Aug 2024 – Jun 2025

Hybrid, Hyderabad

- Contributed to the development and optimization of full-stack products across web and mobile platforms.
- Helped deliver a React Native application for iOS and Android and contributed to the development of an AI-powered chatbot.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript • **Frontend & Mobile:** React, React Native, Next.js • **Backend:** Node.js, Express.js
• **Databases & Caching:** PostgreSQL, Redis, Vector Databases • **Tools & Technologies:** Git, Docker, REST APIs

PROJECTS

CodeUI.ai — AI-Powered UI Generation Platform [GitHub](#) [Live Demo](#)

- Built an AI-powered web application that generates and previews responsive user interfaces from natural-language requirements.
- Implemented an interactive workflow for generating and previewing UI components.

Tech: Next.js, TypeScript, PostgreSQL, Docker

CodeFox.ai — AI-Powered Code Review Assistant [GitHub](#)

- Built an AI-powered code review assistant to analyze pull requests, identify potential issues, and generate actionable feedback.

Tech: Next.js, TypeScript, PostgreSQL, Vector Database

AI Repo — Conversational GitHub Repository Analysis [GitHub](#)

- Built an AI-powered application that analyzes a GitHub repository from its URL and enables users to ask contextual questions about the codebase.

Tech: Next.js, TypeScript, PostgreSQL, Vector Database

EDUCATION

Bachelor of Engineering

Savitribai Phule Pune University, Pune, India

2022 – 2026
